DIAZ CHOOSES A SUCCESSOR

CITY OF MEXICO, November 29.—In spite of the fact that there yet remains considerable unrest throughout the Republic, the plans for the inauguration of President Diaz for his seventh term as Chief Magistrate, to which he was elected in July, have been resumed and the inauguration ceremonies will be carried out even more elaborately than upon previous like occasions. The official inauguration is to take place here on Thursday.

What is particularly interesting at this time are the elaborate plans under way for the inauguration of the Vice President, Ramon Corral, hereafter the ceremony in connection with the taking of office of the Vice President has been slight in comparison with that connected with the presidential inauguration, but this year Vice President Corral will receive almost equal honors with Diaz.

This is regarded as furnishing ample confirmation of the reports in circulation that Diaz has selected Corral as his successor to the more important post, realizing that he himself has reached an age when it will be physically impossible for him to carry on the work of administration much longer.

Corral is intensely unpopular, having been named by the electoral college altogether on the insistence of the President.

ALLEGED SLAYER

OF ALMA KELLNER

FACES A JURY

LOUISVILLE, Kentucky, November 29.—The trial of Joseph Wendling, charged with the murder of Alma Kellner, was begun here yesterday.

The crime for which Wendling is on trial took place here in December of last year. Alma Kellner, a child, the daughter of wealthy parents, disappeared and it was thought she had been kidnapped for a ransom. A search for her was made throughout the United States, a large reward for her recovery being offered. Finally, in May last, the body of the child was discovered, buried beneath the basement of a church. It was then remembered that Wendling, the janitor of the church had disappeared shortly after the disappearance of the girl and a hunt for him was commenced.

The authorities arrested Wendling's wife and then took up the chase after him. Finally, after one of the most remarkable pursuits in the detective history of America, Wendling was run to earth in San Francisco, on July 21.

"KIDNAPED" GIRL

HAD ONLY ELOPED

CITY OF MEXICO, November 29.—Grace Rolph, the Nebraska girl believed to have been kidnapped by a Mexican bandit, whose supposed abductor had been trailed by a posse, headed by the girl's father, through western Mexico, was found yesterday. Instead of being misused and in a desperate state as the reports said, she was found quite happy and unharmed, her abduction proving to have been an elopement.

AT THE THEATERS

FIGHT PICTURES GOOD.

The fight pictures at the Art Theater drew large audiences at each session last night, and throughout the evening there was standing room only. The pictures are excellent in every way, and almost every round of the fight between Battling Nelson and Dick Hyland is given. The pictures are clear, and can be easily followed throughout from the first round, which is a very slow one, to the final, where Hyland goes down and out. The first round of the Nelson-Britt contest fought away back in 1905 was also shown and proved interesting. There are some other good films, one particularly good one being that in which a bright youth goes to work in an electrical supplies shop. He very soon convinces his employer that he has learned enough of the business to justify a severance of trade relations.

LIQUOR BOARD HOLDS MEETING

A meeting of the Board of Liquor Commissioners was held yesterday afternoon, when the resignation of C. H. Cooke as chairman was received and accepted. Mr. Cooke tendered his resignation from the position as he is going on an extended tour. The vacancy was filled by W. E. Brown. O. L. Sorenson took his seat for the first time, as he was only recently appointed by Governor Frear.

The first matter dealt with was a complaint against Moniz the proprietor of the Waipahu Saloon. Inspector Fennell reported against the manner in which some upstairs rooms were rented and the uncleanness of other portions of the premises. The Secretary was instructed to write to Moniz and tell him to remedy the matters referred to.

Mike Paton of the Encore Saloon was reported because a drunken soldier whose face was cut, had been seen sleeping in a chair in the saloon. It was stated that the soldier had sustained the injuries in a drunken brawl. Paton denied that the soldier was drunk. He said that the cuts were the result of a heavy fall occasioned by a punch administered by another soldier. The board ordered Paton to remove all the chairs and tables from the saloon.

It was reported that a three year old girl had been taken into Thomas McTighe's saloon where there was a man well under the influence of liquor. McTighe failed to appear before the board, and the secretary was instructed to write telling him to do so at the next sitting of the board. A complaint has been made against gambling that is said to go on on a vacant lot at the rear of McTighe's premises, and the board has been asked to have it discontinued.

Bertha Klemme in reply to the request that she discontinue the sale of liquor to be drunk off her premises, wrote asking that the order be rescinded. She pointed out that this form of trade had been carried on by her for many years, and added that it would mean ruin if the order were enforced. The board would not reconsider its decision.

The application of Edward Finn for a license at Waipahu was refused. The inspector was asked for a further report concerning the application of Murakami for a restaurant license for premises in School street.

THE RAPID TRANSIT'S NEW CARS ARE MAKING A HIT

The Honolulu Rapid Transit & Land Company recently decided to build ten additional cars. One of this batch has now been completed and has taken its place in the service. Already it has begun to prove popular, for it contains several improvements over the older cars. The interior is stained a much lighter color, and presents a more pleasing appearance, while at night the light coloring increases the brilliancy of the lamps. There is an increased breadth of six inches, and this is given over entirely to the aisle, thus making for greater comfort when the car is crowded. The length too is greater, and in this way accommodation is provided for four more passengers, and there is more room on the motorman's platform.

The principal feature, however, is the decided improvement in the device for preventing obstructions from getting under the wheels. Formerly only one guard was used, but on the latest cars, and all those to be built in future, there will be an additional safeguard in this direction. Under the body of the car at either end immediately in front of the leading wheels, and immediately behind the last pair, another guard has been placed. This will be hooked up to the floor of the car, and connected with it will be a "trip" running in front of it. Immediately this trip is touched it will release the safety device and drop it as a shield over the wheels. Thus the wheels will be thoroughly protected, and it will be impossible for any obstruction to be touched by them. The "trip" is so fitted that it will release the guard at a pressure of two pounds. Each car will be placed in commission immediately it is available.

The work of duplicating the King

street track is proceeding rapidly, but a slight delay in completing it will be experienced owing to the company being short of some of the necessary material. This, however, will arrive tomorrow by the Alaskan, so the delay should not be a great one. The work of wiring is so far advanced that by December 1 it is confidently expected the double track will be in use as far as Mauna Kea street. This will provide a long stretch of double track, so should facilitate, considerably, the running of the service, and do away with some of the delays that now take place at some of the switches. The work of completion will be pushed on and it is hoped that the entire track will be available by the beginning of the new year.

THINKS DRINKING AMONG WOMEN IS NOT INCREASING

Drinking and cigarette smoking are not on the increase among the women of America, according to Lillian M. N. Stevens, president of the National Women's Christian Temperance Union at the annual convention of the organization which met in Baltimore lately. Referring to the white slave traffic, the speaker reviewed recent Federal, State and city attempts to stifle it, and continued: "It matters little whether the traffic is organized or not. The fact that it exists in New York and elsewhere is sufficient to arouse humanity loving people."

CHALMERS MOTOR CARS

The man with a motor car gets to his office with the sparkle of the sunshine and fresh air in his blood and brain.

You're Paying For a Motor Car

You may think you don't want a motor car. But there isn't any question about your needing one.

If you need a car you are paying for it. Paying in the time that a car would save you. In the opportunities that get away. In the fresh air and recreation which now you do not get.

Whatever we really need we pay for, whether we actually own it or not. You could get along without an overcoat this winter, but you would pay for one with discomfort and bad colds.

The motor car didn't create its demand after it arrived. The demand has been waiting for forty centuries.

When the steamship, the railroad and trolley took care of the problem of public transportation, the world took a long step ahead.

When the automobile took care of the problem of individual transportation, the world took another long step ahead.

HOW THE FAMILY BENEFITS

Head of the Family—Going to and from business in fresh air. Making business calls. Entertaining customers and business associates. Tours in the country. More knowledge of the country. Mental and physical exercise of driving. Good appetite—better digestion—better humor—better health. Prestige.

Wife and Daughters—Social calls. Entertaining. Plenty of fresh air to drive away "nerves." More time with husband and father.

Sons—Educative value of understanding and caring for a wonderful piece of machinery. Training of mental and physical faculties in driving. Clean, fresh air, recreation and decent entertainment in company of other members of the family.
